Window Glass price on application, call for quote.

NEW SIZE

Breakaways Used within the theatre, film and television industries for stunts and special effects. The Champagne bottles are also widely used for boat launches. Breakaway bottles and glasses shatter very realistically without causing injury. We should point out that these objects are very fragile so regrettably, we can only sell them sent direct in special sprung boxes [box included in price] containing twelve of the item. Breakaways must be stored in a cool place away from direct sun or heat. The maximum window-glass sheet size is 1 m x 1 m. The sheets are packed in wooden crates to allow for transportation. **WE CAN ONLY DESPATCH THESE GOODS AT THE CUSTOMER'S RISK.**

BREAKAWAY RAW MATERIAL

Breakaway Glass This breakaway glass raw material has shatter characteristics closely resembling glass. It has excellent clarity and low surface tack when handled. Melts at 104° C. Small panes of glass [about 1 ft²] can be made relatively simply by using a sheet of Melamine-faced plywood as a mould.

Screw some 25 mm square battens onto the ply to define the size. The battens should be covered in parcel tape or polythene to stop the Breakaway Glass from sticking. Use a light release agent on the board such as Formula 6 [page 123]. Heat the Breakaway Glass in a double pot with an air gap rather than a water jacket to 104° C. Pour the melted glass to cover the board and leave it level to cool. Unscrew one or more of the battens and tap the Melamine-covered board with a hammer. The glass will slide off. We used to use squares of Underfelt [page 141] between each sheet and tour the sheets in a special wooden box. Keep the boxes cool.

SMASH PLASTIC

As used by James Bond.

SMASH! Plastic is a two-component urethane that is mixed 1A:1B by volume and cures to a water-clear solid plastic designed to break like glass on impact. The Smooth-On lab did a tremendous balancing act, formulating this product not to be too fragile, but to certainly break on impact. It truly looks and sounds like breaking glass when smashed. Broken fragments look like

broken glass. SMASH!™ can be cast solid [for making window panes] or rotationally cast [for making bottles, drinking glasses, etc.] in thicknesses NO GREATER THAN 1/8" [3.2 mm]. If using this product for smashing over someone's head, make sure you observe this thickness limitation or someone could be injured. If casting solid, vacuum degassing or pressure casting are recommended to help eliminate air voids. If rotocasting, finished castings will look like frosted glass. If you want clarity in a bottle casting, better to build a core mould and cast with a 1/8" wall thickness. SMASH!™ can be pigmented to look like a beer bottle – or any other colour – using SO-Strong™ tints [please phone for information].

COBWEB EFFECTS

Kobweb Spinner This device attaches to a standard electric drill to spin out cobweb filaments for effects purposes. To use, fill the container with Kobweb solution, crack open the lid a fraction and spin at about 2,000 rpm. The filaments should shoot out forwards [hey, check your drill is not in reverse!]

about 3 or 4 ft. For full instructions and data sheets visit flints.co.uk.

Kobweb Solution For use in the Kobweb Spinner.

Kobweb Cleaner For use with a soft rag to remove cobweb contamination.

Kobweb Spinner	code	price
Kobweb Spinner	SFXCOBSPINNER	£121.00
Kobweb Solution 500 g	SFXCOBFLUID	£25.00
Kobweb Cleaner 500 g	SFXCOBCLEANER5	£13.45

Kobweb Spray An easy to use aerosol which sprays copious amounts of cobweb filaments. Ideal for theatre, photography, and display purposes. Solvent-based, cleans up with White Spirit [page 61]. N.B. At low temperatures the vapour pressure can drop and the effect won't work. Follow guidance on can carefully.

Kobweb Spray	code	price	12+
	PAT975	£14.95	£13.78

LIGHTSTICKS

Lightsticks Non-toxic, non-flammable, 360° illumination, 100% safe. Available in six colours. Just bend and shake to start.

Lightsticks	duration	code	price	colour	duration	code	price

Candlelight

"Electricity kills darkness, candlelight illuminates it" Thoreau.

Flicker Candles are sadly no longer available - our existing supplier discontinued them, and any replacements we found were over priced and poor quality. We'll keep hunting for them though!

SMOKE AND FOG

Mini Mist Machine 240V The Mini Mist has long been established as the leading aerosol fog machine. A robust hand-held unit, making it the chosen generator for the film and TV industries as well as the armed forces and fire brigades.

- ✓ Can be used off the power supply for up to 20 minutes
- ✓ One canister will provide six x 1 minute bursts at full output
- ✓ Smoke output of 180 cubic metres per minute
- ✓ Variable control
- ✓ Weighs just 8 kg

SMOKE CANS AND PELLETS

NEW SIZE

Smoke Grenades A two-second delay followed by thick brightly coloured smoke lasting an average of 90 seconds. Originally designed for combat sports, these cool burning smoke grenades are not to be used inside. Ring Pull activation for ease of use [follow instructions carefully]. The manufacturer advises that as long as the body of the grenade, once depleted, is disposed of properly - including the plastic cap and ring pull - there should be no negative impact on the environment from use. Regrettably due to shipping and transportation restrictions we are no longer able to sell these individually. Boxes of 50 can be ordered and will be sent direct from the manufacturer. Boxes of 50 can still be collected from our trade counter and delivered on our Van Run. Please note, the date printed on the top indicates production date. When stored correctly the grenade should have a shelf life of 5 years. Over 18's only - proof of age will be asked on purchase.

For other snow effects see Fosshape™ [page 99], Marble Dust [page 25], and Opalina Snow [page 41].

MAKE-UP AND BLOOD EFFECTS

Dracula and Flints

Flints' old shop and showroom on Queens Row was built as a scenic paint studio for Joseph Harker over 100 years ago. Joseph Harker was a good friend of Bram Stoker. The hero of Dracula, Jonathan Harker, was based on Joseph Harker. Unfortunately the building's owner is soon to turn it into Flats.

Signatures of all the famous scenic artists including Joseph Harker seen on the wall of the studio.

Pigs Might Fly [Blood] When multi-award winning special effects make-up artist, Nick Dudman, needed an ultra-realistic, fully washable, non-staining, running theatrical blood – he brewed his own. We're really amazed by how washable it is! We've also heard of blood being removed from a silk dress with damp kitchen towel and leaving no mark. Just **don't** dry clean. Also for use in mouth capsules 🍷, and for mouth effects.

Two types: Standard is arterial/fresh; Dark is venous/aged.

Pigs Might Fly	size	standard code	price	dark code	price

COSTUME EFFECTS

Dirty Down Costume Crayons - Box of 10 These wax crayons are ideal for any costumer, set dresser, prop master, stage manager, or art department assistant to have in their bag. Easy to use, they will quickly dirty down, and distress fabrics, costumes and even props and pieces of set. Especially good for seams. Perfect for last minute alterations. A great range of colours, that compliments the ever-popular Dirty Down Sprays [page 69]. Non-toxic, so safe to use for skin contact.

Dirty Down Costume Crayons	code	price
	PATCC10	£16.55

PermBlood Permanent realistic wet blood effect for costumes and props - not to be used on skin! Great for creating fresh blood effects on costumes as once it is set, costumes can be laundered and used again without having to reapply the blood

effect. Also suitable for application to costumes / props being used when shooting underwater scenes. Similar effect can be achieved by pigmenting the transparent coatings listed on page 47 for larger scale effects. Available in Original (fresh blood) and Dark (dried/old blood). 250ml Jar. Not to be confused with washable ProBlood on page 107.

PermBlood	code	price
Original	SFXPMR250	£33.25
Dark	SFXPMD250	£33.25

RUBBER ICE & GLASS

Rubber Ice Cubes These are as realistic as the ones out of your ice tray. Crystal clear on the top and slightly frosted around the sides, each ice cube is ever so slightly different so look just like the real thing even in close ups. They also float in water and make no noise in glass. However, the slight frosting on the outside of these ice cubes means they look their most realistic when dry. **N.B.** Not to be used in liquids to be drunk from as they are not food-grade

Rubber Glass Crumb & Shards Two versions, the crumb version is great for shattered glass effects; The sharp [but safe to handle] irregular shapes make the crumbs highly realistic. Made of clear rubber, each individual 'crumb' is 10mm thick ranging in size from 5 - 30 mm across. For an even finer crumb these can be broken up by hand even

further and remain clear and sharp. The shards are also 10 mm thick, but vary from 40 - 90 mm across.

Rubber Effects		code	price
